

Traceability Officer

Starting date: As Soon As Possible

Contract type: Fixed term (2 years renewable)

Salary: UK: £27,000 per annum

Location: UK (London, or accessible to London)

Application closing date: 1st November 2021 (Note: we will be reviewing applications as they are received)

Background

The Better Cotton Initiative (BCI) – the largest cotton sustainability programme in the world – aims to reach 5 million farmers worldwide with more sustainable agricultural practices, and account for 30% of global cotton production by the end of the 2020-21 cotton season. In under 12 years, the Better Cotton Initiative and its Partners have supported 2.3 million farmers in 23 countries. In adopting more sustainable agricultural practices. Thanks to these efforts, Better Cotton accounts for around 22% of global cotton production. We are truly a joint effort, encompassing stakeholders from farms to fashion brands and civil society organisations, driving the cotton sector toward sustainability. BCI aims to transform cotton production worldwide by developing Better Cotton as a sustainable mainstream commodity.

About this role

As BCI enters its next strategic phase, to achieve our 2030 vision and drive change on the ground for farmers, BCI will make it possible to trace Better Cotton. By introducing traceability, we will continue to generate demand for Better Cotton, supporting our core markets of apparel and textiles while contributing to systemic change.

We work across all kinds of farm types, sizes and geographies. It is crucial that these producers, and the Better Cotton they produce, can continue to access international markets in the face of changing regulatory and business expectations. Traceability represents an opportunity to bring transparency on impact while ultimately meeting our vision to drive change on the ground for farmers.

To deliver traceability, a new team has been formed to develop, launch and roll out a solution over the next 4 years. We're seeking an organised and motivated officer to support administration and coordination of traceability activities. This role would suit someone 1-2 years' work experience. We will also consider university graduates with intern experience and an interest in sustainability.

Responsibilities

Support traceability governance

- Support the organisation of industry task forces and advisory groups including:
 - Meeting support (scheduling, minutes, drafting agendas, etc)
 - Running industry webinars

Communications

- Respond to general enquiries (internal and external) about BCI 's traceability programme while ensuring that communications are well thought out and consistent so that stakeholders feel valued and welcome.
- Contribute as requested to the delivery of membership events, caucus calls, workshops, working groups and conferences

Support stakeholder engagement

- Use BCI's CRM system (Salesforce), to track engagement, responses and develop reports.
- Contribute to the design of workshops and other stakeholder engagement activities and approaches.
- Support the solutions consultant and change manager to gather traceability requirements

Support traceability vendor selection process

- Maintain database of physical and digital traceability technology vendors
- Provide administrative support to vendor selection process

Programmes

- Provide support to coordinate traceability pilots in BCI countries
- Conduct desk-based research as necessary to support the programme (e.g. potential partners, technology solutions, data standards, etc).
