

# Traceability Operations Manager

---

**Starting date:** ASAP

**Contract type:** Permanent

**Location:** London, UK

**Salary:** £54,100 (Dependant on experience)

**Application closing date:** 2nd April 2023

## Background

Better Cotton is the world's leading sustainability initiative for cotton. Our mission is to help cotton communities survive and thrive, while protecting and restoring the environment.

As a multistakeholder initiative, Better Cotton works closely with organisations all the way from farms to fashion brands and NGOs, driving the cotton sector toward sustainability. Better Cotton and its partners currently support over 2.3 million farmers in 23 countries accounting for around 22% of global cotton production.

## About this role

As Better Cotton enters its next strategic phase, to achieve our 2030 vision and drive change on the ground for farmers, Better Cotton will make it possible to trace Better Cotton. By introducing traceability, we will continue to generate demand for Better Cotton, supporting our core markets of apparel and textiles while contributing to systemic change.

We work across all kinds of farm types, sizes and geographies. It is crucial that these producers, and the Better Cotton they produce, can continue to access international markets in the face of changing regulatory and business expectations. Traceability represents an opportunity to bring transparency on impact while ultimately meeting our vision to drive change on the ground for farmers.

A new team was formed in 2021 and continues to grow rapidly. We are on track to launch and roll out a traceability solution at the end of 2023. This is great opportunity to join a team building something truly transformational from the ground up.

We are looking for an experienced manager able to drive and closely oversee execution of global roll out of our new traceability system. The ideal candidate has managed global operations and/or built start-up operations, or is an experienced professional in supply chains and procurement. The candidate should have the ability to manage teams around the world and proven experience introducing change in an international context, with a commercial mindset and an interest in sustainability.

## The role

---

**Reporting to:** Sr Manager – Traceability

**Posts this role manages:** 1 operations coordinator (UK based)  
In-country managers and coordinators in 3-5 countries (matrix or line arrangement)

**Ensure volumes of traceable Better Cotton at go-live**
