About Better Cotton

Better Cotton is the world's largest cotton sustainability programme. Our mission: to help cotton communities survive and thrive, while protecting and restoring the environment. In challenging times, we are meeting the challenge head on. Through our network of field-level partners we have trained over 2.5 million farmers - from the smallest to the largest - in 23 countries in more sustainable farming practices. A quarter of the world's cotton is now grown under the Better Cotton Standard. We have united the industry's stakeholders behind our efforts, from ginners and spinners to brand owners, civil society organisations and governments. Everyone who cares about cotton and its sustainable future can now be part of something better.

We work across all kinds of farm types, sizes, and geographies. It is crucial that these producers, and the Better Cotton they produce, can continue to access international markets in the face of changing regulatory and business expectations.

About this role

At Better Cotton we want to continue to increase the amount of monitoring and oversight of the Chain of Custody (CoC) and supply chain. In 2023 we are introducing traceability into the Better Cotton Standard System which will mean new CoC requirements for suppliers and new procedures and practices in the trading and processing of cotton. With these changes come additional integrity risks that will need to be carefully managed alongside any other potential risks in the existing supply chain. This role will play a key part in ensuring assurance and helping to bring increased supply chain transparency and credibility.

Responsibilities

The Compliance and Monitoring Coordinator reports into the Senior Membership and Supply Chain Coordinator for Turkey and is responsible for delivering the following body of work:

1. **Conduct ginner assessments.**

- Together with the line manager, develop and implement a supply chain compliance approach for Turkey, in line with the global approach to ensuring supply chain compliance to the Better Cotton Chain of Custody Standard.

- Organise and conduct second party ginner audits in Turkey as defined, report and coordinate the follow-up of non-conformities or supply chain risk areas identified.
 - Follow up on and track closure of corrective action plans from the Ginner Assessments.
- 2. Conduct remote transaction monitoring audits for Better Cotton supply chain actors.**
- Conduct remote transaction monitoring audits and proactively investigate irregular transactions detected via the Cotton Cloud or Digital Platform.
 - Monitor outputs of the remote transaction monitoring audits and ensure effective close out of any non-conformities.
 - Ensure smooth reporting of audit outcomes using the dedicated tracking system.
 - Provide regular inputs to help improving the overall monitoring processes.
- 3. Support assurance activities on the Better Cotton Chain of Custody Standard third party audits**
- Oversee the training of third party auditors for the region and implement systems to monitor auditors' performance (including shadow visits, feedback surveys, report reviews) in collaboration with the line manager.
 - Follow up on closing any non-conformities found during third party verifications.
- 4. On-boarding process**
- Prepare and update training and capacity building materials based on the findings of the monitoring visits of previous years to reduce the risk of non-conformities.
 - Deliver on-site and online ginner training for ginner located in different regions of Turkey.
 - Support the onboarding of organisations to the new Chain of Custody Standard which may include reviewing registration forms and screening for other integrity risks.
 - Review annual internal reviews submitted by supply chain organisations.
 - Follow up on actions required from the annual internal reviews.
- 5. Continuous process improvements**
- Proactively share local best practices with the other Better Cotton compliance and monitoring resources and enquire about the best practices in other countries.
 - Work with the other Better Cotton compliance and monitoring resources to review existing processes and recommend improvements.
 - Keep up to date with local laws and policies, and proactively share with the global team, highlighting any potential risks.
- 6. Team support**
- Assist in updating the related process and training materials.
 - Contribute to the development of the team's objectives and workplans.
 - Support training activities of the Compliance and Monitoring team as required
 - Attend and participate in regular team meetings.

Beyond these specific responsibilities, the Compliance and Monitoring Coordinator is expected to collaborate on activities as agreed with the line manager to support the delivery of the Better Cotton strategy.
