

BCP – MFA Rollout

如何在 BCP 启用 MFA?

步骤1：在您输入用户名和密码登录后，您将看到以下屏幕以设置您BCP账户的多重验证(MFA)。请直接用指定的验证程序或APP(如微软验证程序Microsoft Authenticator、Salesforce Authenticators、谷歌验证程序Google等)扫描QR二维码，不能用相机扫描该二维码。

The image shows a screenshot of the BCP platform's multi-factor authentication setup page. It features a QR code for scanning, a verification code input field with placeholder '215200', and 'More Info' and 'Submit' buttons. Below the form is a copyright notice: '© ChainPoint bv 2024'. To the right is a photograph of a person's hand picking cotton from a plant.

步骤2：您需要使用支持的 TOTP 应用程序来设置 MFA。以微软验证程序(Authenticator)为例，您可以点击添加账户，然后扫描 BCP 屏幕上显示的QR二维码。

The image displays two screenshots of the Microsoft Authenticator app. The left screenshot shows a guide for adding a new account. The right screenshot shows the QR code for the BCP account and a verification code input field with '215200', along with 'More Info' and 'Submit' buttons. Both screenshots include the copyright notice '© ChainPoint bv 2024'.

步骤3：验证程序会为已添加的账户生成一个6位数代码。将此代码输入 BCP 即可完成整个过程。请不要删除验证应用APP或已添加的帐户，因为您每次登录 BCP 帐户时都需要输入该应用程序中的 6 位数字代码！

This image shows the Microsoft Authenticator app after account addition. It displays a success message '已成功添加账户' (Account added successfully). On the right, a separate screen shows the generated one-time password '215 200'.

This image shows the Microsoft Authenticator app after account addition. It displays a success message '已成功添加账户' (Account added successfully). On the right, a separate screen shows the generated one-time password '215 200'.

步骤4：最后，BCP将生成一个包含字母和数字的备用代码！请妥善保管这个代码！它将在您无法访问验证应用程序时为您提供帮助。

The image shows the BCP multi-factor authentication setup completed. It includes a success message 'Two factor authentication setup completed.', a note about backup codes for account recovery, and a backup code 'FBAC-592A-41A8-944F'. At the bottom is a 'Continue' button. To the right is a photograph of a person's hand picking cotton from a plant.
